Package Contents:

- . EzCAP USB 2.0 Video grabber
- . USB extension cable (option)
- . Software and driver CD

Hardware Installation

Note: If you have any antivirus software enabled, please disable it during the installation of the software.

Before you first connect the EzCAP series USB 2.0 Video Grabber to your computer, please insert the “Software and driver CD” into your CD drive. Select the option “Install Driver”.

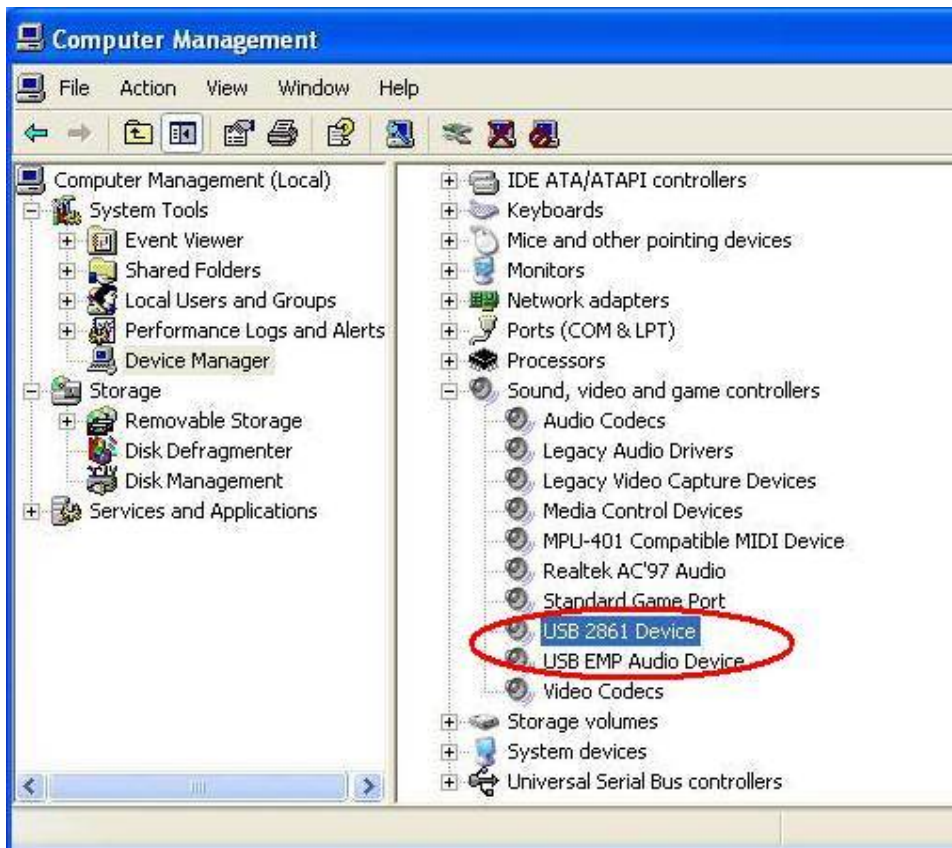

If prompted select “No, not this time” and select “Next”. Select the option “Install the software automatically” and click “Next”.

A window may appear about the “USB 2861 Device” not passing the windows logo testing, select “Continue Anyway”.

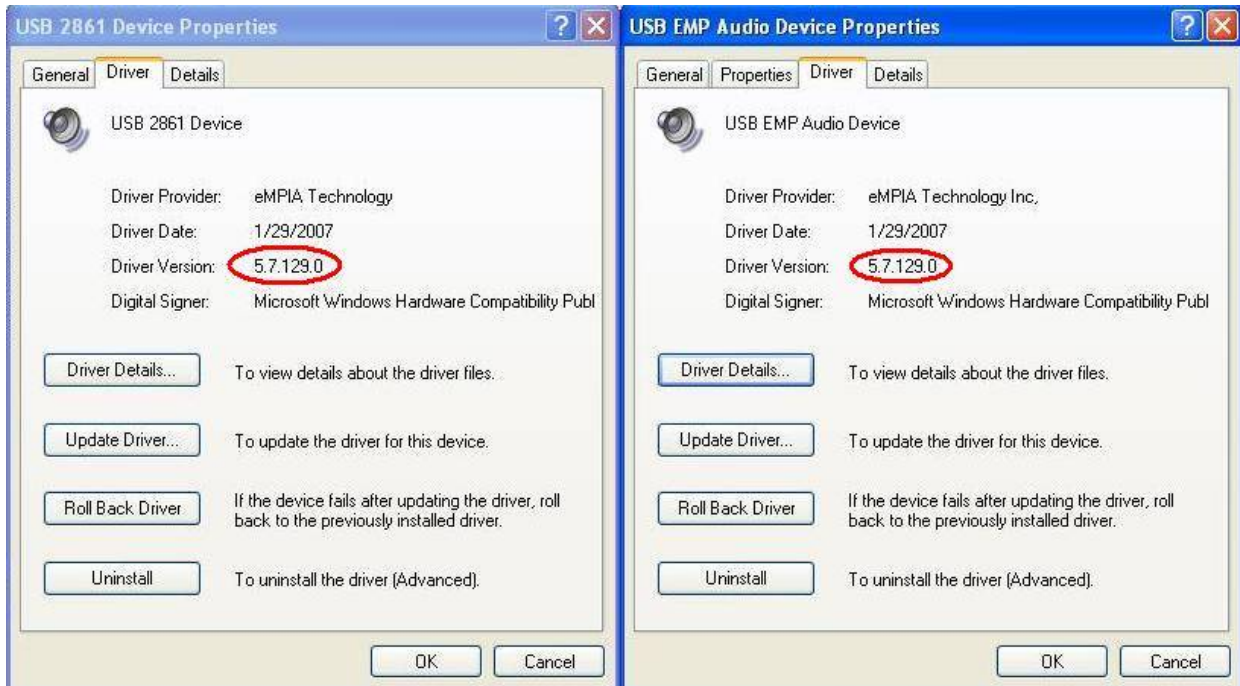

When “Completing the Found New Hardware Wizard” window appears click the “Finish” button to complete the driver installation.

Note: If any further components are found please repeat the above process until you receive the message “Found new hardware: Your hardware is installed and configured use”.

You will now need to check that the drivers are installed correctly. Connect the EzCAP Video Grabber to your computer, Right Click on My Computer and Left Click on properties. Click on Hardware tab and then Device Manager. In the Device Manager click on the “Sound, video and game controllers” correctly you should see the “USB 2861 Device” and “USB EMP Audio Device”. If it has a Yellow mark next to it then this means that the driver is not installed correctly. You will need to remove the driver and disconnect the EzCAP Video Grabber from the computer and reconnect it to install the driver again.

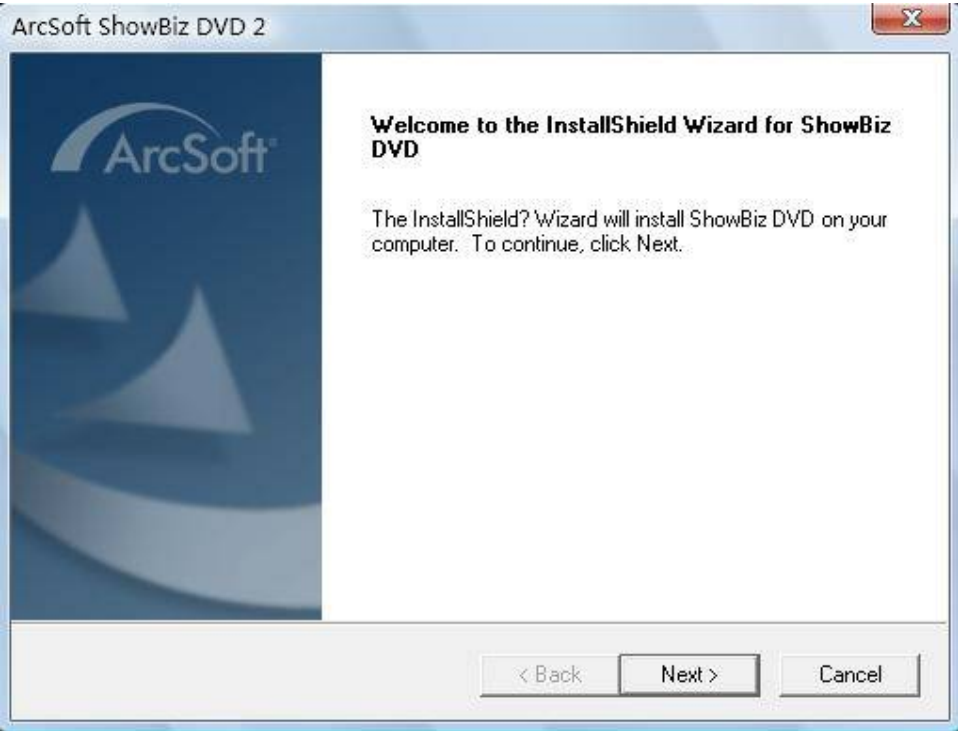

You can check the driver version for “USB 2861 Device” and “USB EMP Audio Device”.

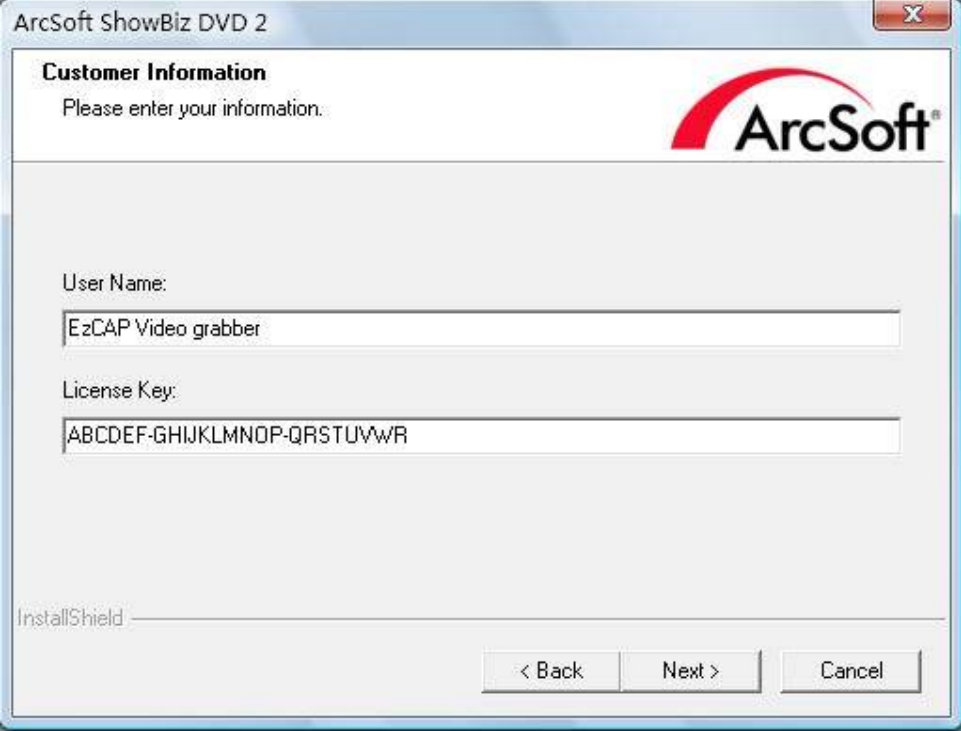

ShowBiz DVD 2 Installation

Please insert the “Software and driver CD” into your CD drive, Click “Install ShowBiz DVD 2” and select your language for the installation. And click “Next” or/and “Install”.

You need enter user name and serial number (you can find out the serial number on driver CD bag).

Click “finish” to complete setup, restart your computer if needed.

For more detailed instructions for using ShowBiz DVD 2, please open ShowBiz DVD 2 and click “Help” key to get them.

Environmental recommendation

An electrical/electronic product should be disposed of in a manner that minimises environmental impact as much as possible. The device should be disposed of according to local guidelines. The device can usually be disposed of at the local recycling station.

The WEEE Directive

The directive on waste electrical and electronic equipment (WEEE), which became European law on the 3th of February 2003, has led to a radical change in the handling of waste electrical and electronic equipment. First and foremost, the purpose of this directive is to reduce WEEE and also to promote recycling, reuse and other types of recovery of this type of waste in order to reduce the amounts for disposal.

The WEEE logo on the product or on its packaging indicates that this product should not be treated as household waste. You are responsible for handing over all your electrical or electronic waste to the applicable collection points for the recycling of this type of hazardous waste. Separate and correct recovery of your electric and electronic equipment when it is discarded contributes to conservation of natural resources. Furthermore, correct reuse of electric and electronic waste contributes to the protection of human health and the environment.

For more detailed information about disposal of electric and electronic waste, recycling and collection points, please contact your local city government, your household waste disposal service, the shop where you purchased the product or the manufacturer of the product

The RoHS Directive

On July 1, 2006, the RoHS Directive (www.thiim.com/pdf/rohs.pdf) (2002/95/EC) came into effect. The aim of this Directive is to limit the use of hazardous substances in electrical and electronic equipment and to contribute to human health protection as well as environmentally sound utilization and disposal of electrical and electronic waste

Guarantee

The guarantee is invalid

- If the above is not observed.
- If the device has been abused, exposed to force or other type of damage.
- If there has been any unauthorized intervention in the device.
